

## ERRATA

### *The Health of Racial and Ethnic Populations in Wisconsin: 1996-2002*

#### Minority Health Program, Division of Public Health, Wisconsin Department of Health and Family Services

We have discovered the following errors in the report, *The Health of Racial and Ethnic Populations in Wisconsin, 1996-2000*. Corrected information is shown below in bold.

Page 9, first column, second bullet: Includes an incorrect percentage. The corrected bullet reads:

- **Forty-four** percent of Wisconsin's Asian population lived in either Milwaukee County (27%) or Dane County (17%).

Page 67, Figure 19, "Average completed fertility per woman by race/ethnicity, based on Wisconsin age-specific birth rates": Three of the bars were mislabeled. Corrected data for this figure is as follows:

Average number of children per woman:	
African American/Black	2.5
American Indian	2.2
All Asian	2.6
<b>Laotian/Hmong</b>	<b>6.2</b>
<b>Hispanic/Latino</b>	<b>2.8</b>
<b>White</b>	<b>1.7</b>

Pages 96-98, Figure 38, Figure 39, and narrative bullets: Breast cancer incidence rates and death rates should be expressed **per 100,000 female population**.

Pages 99-100, Figure 40, Figure 41, and narrative bullets: Cervical cancer incidence rates and death rates should be expressed **per 100,000 female population**.

Pages 101-102, Figure 42, Figure 43, and narrative bullets: Prostate cancer incidence rates and death rates should be expressed **per 100,000 male population**.
